

220v 24v to 13 8v inverter

Overview

Input voltage range: DC 18-35V; Output voltage: DC 13.8V (non-adjustable);
Output current: 100A; Output power 1380W. High conversion efficiency:
Synchronization rectification technology-multiple intelligent protection
function with high conversion efficiency and stability.

220v 24v to 13 8v inverter

Daygreen 24V to 12V 13.8V Power Buck Module Car Step Down ...

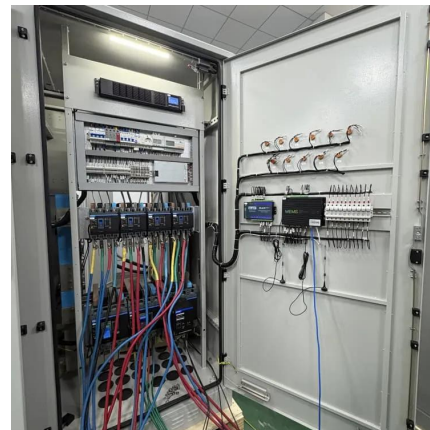

24V DC battery of vehicles as input power to 12VDC appliances as output load. How to choose the correct current for loads? For example, if the max current of your load device is ...
