

4G photovoltaic inverter

Overview

How many MPPTs can A solis 6-10kw Inverter Supply?

Solis 6-10KW US plus version single phase string inverters have up to 4 MPPTs which are perfect for residential rooftop systems with different roof orientations. The maximum input current per string is up to 14A, which is compatible with new high-power and bifacial PV modules.

What is a Solis 6-10 kW single phase string inverter?

Proven and reliable, the Solis 6-10 kW single phase string inverter family has been deployed in the United States and Canada since 2011. It has up to 4 MPPTs which can be utilized in complex design environments and leads the industry in flexibility.

What countries use inverter?

Kenya Tunisie République la المملكة الأردنية الهاشمية جمهورية مصر العربية
Tanzania Nigeria Other Countries and Regions Other Countries and Regions
