

Albania photovoltaic energy storage power station general contractor

Overview

French company Voltalia broke ground on the Spitalla solar park in Albania of 100 MW. It scheduled the commissioning of the facility for 2027. Following the completion a year ago of Karavasta, the largest photovoltaic plant in Albania, Voltalia started the construction of Spitalla. Will Albania build a solar photovoltaic park?

The Albanian government has given the green light to two projects put forward by local companies and envisaging the construction of solar photovoltaic (PV) parks with a combined capacity exceeding 100 MW. The Karavasta solar park in Albania. Image by: Voltalia.

Where is Albania's second largest photovoltaic plant?

The company laid the cornerstone late last year for the 100 MW solar power system in the west of Albania. The site is near the port city of Durrës. One other PV plant is planned for expansion to 100 MW. Now another project of the same size is racing for the position of the country's second-largest photovoltaic facility.

Could a photovoltaic unit be the second-biggest in Albania?

A proposed unit in Fier, the country's photovoltaics hub, would be the second-biggest in the country. Solar power accounts for 6% of electricity production in Albania. More than half of the photovoltaic output is from the Karavasta facility, the biggest of its kind in the Western Balkans. It has 140 MW in peak capacity.

What is Voltalia doing in Albania?

Voltalia has started doing business in Albania in 2018 with the unsuccessful participation in the first solar tender organized by the Ministry of Infrastructure and Energy of the Republic of Albania ("MIE"). Despite this result, Voltalia has demonstrate great interest in the construction of 2.5 MW FiT-solar PV projects.

Does Albania have solar power?

Solar power accounts for 6% of electricity production in Albania. More than half of the photovoltaic output is from the Karavasta facility, the biggest of its kind in the Western Balkans. It has 140 MW in peak capacity. France-based Voltalia won a long-term power purchase agreement for the project by winning a state-sponsored auction in 2020.

Is Voltalia a good solar company?

Despite this result, Voltalia has demonstrate great interest in the construction of 2.5 MW FiT-solar PV projects. So far, Voltalia has built 3 of such solar plants for third parties. These 3 projects have been operating for several months now and have contribute to strengthen Voltalia image among the solar players.
