

# **Argentina s energy storage lithium battery manufacturers**

## Overview

---

Who is Argentina Lithium & Energy Corp?

Learn more Welcome to Argentina Lithium & Energy Corp. Argentina Lithium & Energy Corp is focused on acquiring high quality lithium projects in Argentina and advancing them towards production in order to meet the growing global demand from the battery sector.

How many companies are involved in a lithium project in Argentina?

These are some of the findings from a report prepared by the consulting firm Aleph Energy, led by Daniel Dreizzen, which analyzes the global lithium market while delving into Argentina in greater detail. These are the 41 companies of various characteristics that participate in the country's 64 projects.

Is Arcadium lithium still produced in Argentina?

Arcadium Lithium, the firm that resulted from the merger between Livent and Allkem, two of the three companies that were already producing lithium in Argentina, accounts for 13% of global production. Output has quadrupled in the last ten years, but is still attributable to only a few countries and projects. Another Argentine Unicorn on the Horizon?

.

How much lithium will Argentina produce in 2040?

If Argentina manages to bring all of projects to production , the country would produce up to 1.5 million metric tons of lithium carbonate equivalent per year, exporting around US\$30 billion. This scenario could be achieved by 2040, according to Dreizzen's estimates.

Which Argentine sites produce lithium hydroxide and lithium carbonate?

Two Argentine sites, Salar de Hombre de Muerto and Salar Cauchari - Olaroz,

are already producing lithium hydroxide and lithium carbonate, and are among the top three with the highest lithium concentration in the region, behind Salar de Atacama in Chile. They are also among the top three with the lowest impurities.

How has lithium impacted the Argentine economy?

The Aleph lithium report identifies 64 projects in the country, of which three are already in production, and seven are under construction. The latter phase has had two direct impacts on the Argentine economy, in the shape of employment and imports.
