

Australian containerized energy storage cabin supplier

Overview

What is a shipping container solar solution?

It's a modified shipping container built to house solar panels, batteries, inverters, and other off-grid power systems. These units are ideal for powering remote sites, construction camps, emergency setups, or as a portable backup energy system.

Who is apex Energy Australia?

At Apex Energy Australia, we offer state-of-the-art Battery Energy Storage Systems (BESS) tailored to meet diverse energy needs.

What does a modbox solar container include?

A typical ModBox solar container includes battery storage, inverter setup, internal racking, cabling, ventilation, and secure access. We can also include external solar panel mounting or integrate with your existing array. Can I use a solar container to power other ModBox units?

Absolutely.

What is a hybrid-ready container solution?

The Hybrid-Ready Container Solution is a modular product in a series of products enabling full distributed energy plant deployments anywhere with enough open space to support solar energy. The SunFlex Hybrid-Ready Container Solution is built for predictable, repeat-use deployment across industries that demand off-grid reliability.
