

Australian energy storage project bidding

Overview

Will Waratah super battery be Australia's biggest storage tender?

Waratah Super Battery. Photo: Akaysha Energy. Key design changes have been released ahead of what is expected to be Australia's biggest ever storage tender when it is launched as part of the federal government's Capacity Investment Scheme next month.

Will a storage project include a generation facility?

In a market briefing document published on Tuesday, AEMO Services says any associated generation facility attached to a proposed storage project would not be included in the assessment of the bid. And the proponent will be under no obligation to build the generation component under the terms of the storage contract.

Will Kiar energy storage system be assessed under EPBC Act?

Sydney-based Bid has submitted plans for the Kiar Energy Storage System to the federal government for assessment under the Environment Protection and Biodiversity Conservation (EPBC) Act and lodged a scoping report to the NSW Major Project Portal.
