

Austria energy storage household storage installation prices

Overview

How much does a photovoltaic battery storage system cost in Austria?

The total inventory of photovoltaic battery storage systems in Austria therefore rose to 11,908 storage systems with a cumulative usable storage capacity of approx. 121 MWh. For 2020, a price of around € 914 per kWh of usable storage capacity excl. VAT was charged for PV storage systems installed as turnkey solutions.

Does Austria have a market for energy storage technologies?

A study 1 carried out by the University of Applied Sciences Technikum Wien, AEE INTEC, BEST and ENFOS presents the market development of energy storage technologies in Austria for the first time.

Does Austria have a new Subsidy Scheme for residential batteries?

Austria has launched a new subsidy scheme for residential batteries. The Ministry of Climate Action and Energy is providing a total of €15 million (\$16.1 million) to support the installation of new storage systems and the expansion of existing systems used in combination with renewable energy.

How many tank water storage systems are there in Austria?

A total of 840 tank water storage systems in primary and secondary networks with a total storage volume of 191,150 m³ were surveyed in Austria. The five largest individual tank water storage systems have volumes of 50,000 m³ (Theiss), 34,500 m³ (Linz), 30,000 m³ (Salzburg), 20,000 m³ (Timelkam) and twice 5,500 m³ (Vienna).

Who owns gas storage in Austria?

The entire storage infrastructure in Austria is owned by OMV AG and RAG, as well as by joint ventures between RAG and astora, Gazprom Export LLC and Uniper Gas Storage GmbH. Owing to the geological conditions, most of the storage facilities are pore storages, since depleted natural gas fields are used

for gas storage.

What is Austria's new incentive program for residential batteries?

Austria's new incentive program will support the deployment of residential batteries with storage capacities of 4 kWh to 50 kWh. Austria has launched a new subsidy scheme for residential batteries.
