

# BESS price for solar panel sheds in West Asia

#### **Overview**

What is the off grid shed power Bess?

The off grid Shed Power BESS includes a powerful hybrid solar and battery inverter/charger; 10kWh of L-ion battery storage; and the capacity to connect up to 10kW of solar PV modules. System prices are provided as a guide only.

Are solar panel kits for sheds a good idea?

Solar panel kits for sheds are particularly beneficial for those using their sheds as workshops or storage areas, allowing you to harness sunlight without relying on external power sources. This independence can bring peace of mind, knowing you have a reliable energy source at your fingertips.

How much does a Bess project cost?

Each project must start operations by 2026 and is expected to have commercial operations spanning over a period of 15 years. Solarvest Holdings Bhd (KL: SLVEST) group CEO Davis Chong estimates the installation cost of BESS to be around US\$200 per kilowatt-hour (kWh), translating to about RM400 million for the 400mwh project.

How are Bess projects funded?

At the moment, BESS projects are awarded directly, as the system is still in the pilot phase. Independent RE producers are also encouraged to install BESS at their solar farms. For instance, Tenaga and UEM Group Bhd-backed NUR Power Sdn Bhd are involved in the development of a 400mwh BESS facility for RM600 million.

How many Bess projects are there in Malaysia?

The programme is broken into four projects with a capacity of 100mw/400mwh each and includes the design, installation and operation of BESS at various sites in Peninsular Malaysia. Each project must start operations by 2026 and is expected to have commercial operations spanning

over a period of 15 years.

Should re producers install Bess at their solar farms?

Independent RE producers are also encouraged to install BESS at their solar farms. For instance, Tenaga and UEM Group Bhd-backed NUR Power Sdn Bhd are involved in the development of a 400mwh BESS facility for RM600 million. The project marks Peninsular Malaysia's first utility-scale battery storage project.
