

Bangladesh local communication BESS power station

Overview

What is Bess & how will it impact Bangladesh?

With Bangladesh's electricity demand expected to reach 32 gigawatts (GW) by 2030, the introduction of BESS is seen as a crucial advancement for modernizing and stabilizing the national power grid. BREB, having nearly achieved universal electrification, will use this project to provide more reliable power, especially during peak demand periods.

Who is deploying EV charging stations in Bangladesh?

Various power sector agencies including Bangladesh Rural Electrification Board (BREB) and West Zone Power Distribution Company Limited (WZPDCL) have already deployed EV charging stations, as have various private investors (including SolShare).

Can distribution companies provide electricity solutions for displaced communities in Bangladesh?

There are no service obliga-tions for distribution compa-nies to provide electricity solu-tions for displaced communi-ties in Bangladesh. Distribution companies and non-governmental organisations (NGOs) (in the absence of service area obligations) would be key institutional stakeholders for the deployment of this applica-tion.

How much storage capacity will be provided by Bess system?

The BESS system, which will be deployed in four Power Distribution Societies (PBSs)-Dhaka PBS-1, Narsingdi PBS-1, Mymensingh PBS-2, and Kishoreganj PBS-will deliver 8 MW of storage capacity in each PBS, totaling 32 MW as a pilot basis Project.

When does Barisal power plant in Bangladesh start production?

The Barisal Power Plant in Bangladesh is connected to the grid for power generation and put into production on Oct 29. The Barisal Power Plant in

Bangladesh, invested in and operated by POWERCHINA, was connected to the grid and started production, with all systems running smoothly, on Oct 29.

How does the power sector support transport in Bangla-Desh?

The power sector continues to support the ongoing electrifica-tion of transport in Bangla-desh, through various initia-tives undertaken by distribu-tion companies and the roll-out of an EV charging tariff.
