

# **Base station equipment for Equatorial Guinea s telecommunications operators**

## Overview

---

How will telecom service revenue grow in Equatorial Guinea?

Total telecom service revenue in Equatorial Guinea will increase at a CAGR of 5.5% over the forecast period 2024-2029, supported by growth in mobile data and fixed broadband services.

How many telecommunication companies are in Equatorial Guinea?

Equatorial Guinea has three telecommunication companies: GETESA, Muni and Gecomsa. Getesa is the largest and the historical Equatorial Guinea telecommunication company established in 1987. The Government of Equatorial Guinea holds 60% of the company whereas France Cable held 40% until it transferred its shares to Orange in 2010.

How does Equatorial Guinea connect to the Internet?

Importantly, this includes connecting Equatorial Guinea to the telecommunications world through the African Coast Europe (ACE) fiber optic cable. Prior to 2011, Equatorial Guinea's Internet connections were provided primarily via satellite—a slow and largely cost-prohibitive technology—and cellular phones.

How has telecommunications changed in Equatorial Guinea?

Equatorial Guinea's telecommunications landscape changed dramatically with the installation of the ACE fiber optic cable offshore West Africa in 2012. GITGE was ready for the connection, having already built Equatorial Guinea's link to the ACE cable—the Ceiba-1 Cable—in 2011.

Does Equatorial Guinea have gecomsa?

Equatorial Guinea has Gecomsa. Getesa is the largest and the historical Equatorial Guinea telecommunication company established in 1987. its shares to Orange in 2010. back the 40% shares due to bad management. The network quality. In addition to this, for the past 30 years, France they tran

sfer the know-how to Equatorial Guinea nationals.

Why did Equatorial Guinea move to Ace?

Equatorial Guinea moved rapidly to not only connect to ACE, but to build an extensive National Network. GITGE aims to bring the best of telecommunications to Equatorial Guinea and connect the country internationally. and GITGE are laying the groundwork to connect Africa and Brazil.
