

# **Bhutan grid-side energy storage**

### **Overview**

With hydropower providing 80% of its electricity, Thimphu's facing a modern dilemma: how to store surplus monsoon energy for dry winters. The Thimphu Power Storage initiative, launched in 2023, aims to solve this through cutting-edge battery systems. But wait, isn't Bhutan already carbon-negative?

### **Bhutan grid-side energy storage**

#### bhutan energy storage for load shifting

Electrical Load Shifting and Energy Storage Industrial refrigeration systems represent a source of flexibility in this context: being large electricity consumers, they can allow large-load shifting by ...
