

Brazilian photovoltaic panel power generation manufacturer

Overview

Where are solar panels made in Brazil?

Pirapora Solar Complex, one of the largest in Brazil and Latin America, with a capacity of 321 MW. In 2016, a factory capable of producing 400 MW of solar panels a year opened in Sorocaba in São Paulo, owned by Canadian Solar. A plan to build a solar panel factory in Rio Grande do Norte was announced by the Chinese manufacturer Chint in 2017.

How many solar power systems will Brazil have in 2024?

Brazil expects to have 1.2 million solar power generation systems in the year 2024. Solar energy has great potential in Brazil, with the country having one of the highest levels of insolation in the world at 4.25 to 6.5 sun hours/day. As of 2019, Brazil generated nearly 45% of its energy, or 83% of its electricity, from renewable sources.

How much solar power does Brazil have?

The total installed solar power in Brazil was estimated at 53.9 GW at February 2025, which consists of about 21.9% of the country's electricity matrix. In 2023, Brazil was the 6th country in the world in terms of installed solar power capacity (37.4 GW).

What certifications are required for photovoltaic systems in Brazil?

One of the key certifications in Brazil is the INMETRO Certification, which is compulsory for photovoltaic systems. INMETRO (National Institute of Metrology, Quality and Technology) is an agency of the Brazilian federal government responsible for metrological services, quality, and technology.

Are solar inverters safe to use in Brazil?

For solar inverter manufacturers in Brazil, the IEC 62109-1 & 2 certifications are particularly important. These cover safety aspects of power converters for use in photovoltaic power systems. In conclusion, Turkey is undeniably rising

as a strong force in the global solar energy market.

What companies are working in Brazil in 2021?

In 2021, a number of photovoltaic and financial solutions companies expanded their work in Brazil. Companies such as Absolar, Insole, Trina Solar, Alexandria, and Evolua Energia saw significant growth. In addition, traditional energy companies such as Shell and Norway's Equinor began to get involved.
