

British battery cabinet manufacturer

Overview

What is a battery storage cabinet?

Battery storage cabinet, largest unit available in FMplus range, ideal for storing small lithium batteries as used in devices such as power tools. Sturdy unit is manufactured with heat-insulating, double walled steel, and features a lockable door with three-point lock. FREE UK mainland delivery 6-7 weeks (excluding Highlands & Islands).

What is a lithium-ion battery charging & storage cabinet?

lithium-ion battery charging and storage cabinet, fortified with ChargeGuard™ for ultimate protection. This state-of-the-art cabinet features multiple layers of advanced shielding, specifically designed to reduce the risks of battery fires and thermal runaway.

What is a lithium battery en cabinet?

Lithium battery EN cabinet is equipped with the latest safety technology to ensure compliance with norms and full protection to personnel and property against the potential hazards of storing, handling and charging of Lithium-ion batteries. FREE UK Mainland delivery 4-6 weeks (excluding Highlands & Islands).

Why do you need a lithium battery storage cabinet?

As the demand for lithium-ion batteries grows, proper storage and fire protection are essential for operational safety and regulatory compliance. Our cabinets, featuring renowned brands like Ecosafe, Cemo, and Armorgard, offer industry-leading solutions for lithium battery storage.

What are the best lithium battery storage cabinets?

Our cabinets, featuring renowned brands like Ecosafe, Cemo, and Armorgard, offer industry-leading solutions for lithium battery storage. Built with advanced fire protection, our products include 60- and 90-minute fire-rated

cabinets tested up to 105 minutes to meet EN14470-1 standards, ensuring your batteries are safe even under extreme conditions.

What is a battery charging cabinet?

Organisation and tidiness: a battery charging cabinet enables batteries to be stored centrally and neatly. Efficient charging: The charging cabinet usually offers individual slots or compartments for each battery. This allows batteries to be charged simultaneously and efficiently.
