Overview

What is Brunei energy services & trading?

Explore the journey of Brunei Energy Services & Trading as it shapes the future of national energy. Welcome to Brunei Energy Services & Trading Sendirian Berhad, your trusted partner in the dynamic world of oil and gas trading and services. To Be A Globally Recognised National Energy Company © Copyright 2025 Brunei Energy Services & Trading.

Why is energy security important in Brunei?

Energy Security Brunei relies heavily on fossil fuels for its domestic power generation (natural gas and diesel) and road transport (gasoline and diesel). Although domestic supplies certainly remained secure, the vulnerability of these supplies would entail disruptions that could cause power outages and insufficient fuel supply.

Should Brunei invest in oil & gas?

Currently, oil income still account for 73% of Brunei's GDP. While oil output is at its highest, the country could begin devoting a portion of this to encourage RE and attract investment. This will enable Brunei to make a smooth transition to RE and lessen its reliance on the oil and gas industry.
