

Building a communication base station inverter on the company's office building

Overview

What are in-building wireless solutions?

In-building solutions help significantly improve the wireless coverage inside facilities and on campuses. Most wireless service providers' systems provide sufficient outdoor coverage. But when it comes to coverage within your own facility, you're mostly on your own. Signals can be blocked by building materials such as metal facades and low-e glass.

What is a universal base station system?

"Universal Base Station" system, using flexcell™ and SignalMaster software-design radio (SDR) platforms multi-band (AMPS, GSM, WCDMA, VHF and 802.11) ACT Produced a generic DSP / FPGA board for multi-standard.

What is a DSP/FPGA board 'universal base station' system?

DSP/FPGA board "Universal Base Station" system, using flexcell™ and SignalMaster software-design radio (SDR) platforms multi-band (AMPS, GSM, WCDMA, VHF and 802.11) ACT
