

# Currently the most costeffective photovoltaic panel manufacturers

#### **Overview**

Which residential solar panels have the highest efficiency ratings?

Our CNET experts have found the market's top performers with the highest efficiency ratings. The most efficient residential solar panel right now is the Maxeon 7, which dethroned the older Maxeon and Canadian Solar panels when it launched in February 2024.

Are solar panels efficient?

Most solar panels are at least 20% efficient, but the best ones are over 22% efficient. We reviewed the efficiency ratings of hundreds of home solar panel models and found that five brands stood out: Maxeon, Qcells, Canadian Solar, REC, and Panasonic.

Who makes the most efficient solar panels?

Aiko is a lesser-known manufacturer that recently launched some of the most efficient solar panels in the world, even outranking the renowned Maxeon Sunpower panels for much of 2023. The company's focus on innovation and performance led to the development of the unique All Back-Contact (ABC) cell design.

Which solar panels perform the best?

Maxeon 7 aside, here are the solar panels that perform the best. Maxeon is no longer the sole manufacturer of more efficient residential solar panels. In a recent development, Jinko Solar's new Tiger Neo 3.0 panels have reached a 24.8% efficiency, just 0.1% shy of the Maxeon 7's lab results.

What are the most efficient solar panels in 2025?

This list ranks the top 10 most efficient solar panels of 2025 based on their power output (wattage) and efficiency ratings, helping you make informed decisions for your business energy needs. 1. AIKO Neostar 3P54 500W.

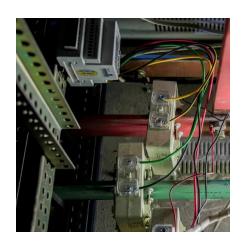

What are the top solar companies?

EnergySage said the top brands that emerged based on these specifications included Maxeon, REC, Panasonic, Canadian Solar, and Jinko Solar. The company also broke out top-performers based on specific desired outcomes for the customer: Best efficiency: Maxeon Solar Technologies
