

Customized containerized power plant in Thailand

Overview

What are the SPP projects in Thailand?

In September 2006, our first 55 MW Co-generation project, "DISTRICT COOLING SYSTEM & POWER PLANT PROJECT at SUVARNABHUMI INTERNATIONAL AIRPORT", was complete and commercially operation for supplying Power Energy, Steam and Chilled Water to Suvarnabhumi International Airport. Today, many SPP Projects in Thailand have been developing very fast.

What is a containerized power module?

Fueled by natural gas, the power module is dedicated to the production of electrical energy. Containerized power module with a power output of 3MW. Plymouth, UK. Flexible generation power plant to balance the local electricity network in an area with growing demand. 2 containerized power modules with a combined power of 5 MW. Yeovil, UK.

Why should you invest in energy generation solutions in Thailand?

As the energy transition gathers pace in Thailand and the region, we continue to innovate and create cutting-edge energy generation solutions that balance decarbonization with energy security, accessibility and affordability – all with the aim of powering a clean and sustainable tomorrow.

Which genset containers are available?

All genset containers are also available with an option for -40°C and most variants can be upgraded for +45°C. A broad range of options, both mechanical and electrical, are available to ensure that our containers meet the project requirements. For example, we offer several heat recovery configurations and exhaust after treatment systems.

What is an eco-friendly MWM cogeneration power plant?

Eco-friendly MWM cogeneration power plants with combined heat and power

enable decentralized, economical and energy-efficient power production. Compact modules for the TCG 3016, 2016 and 2020 gas engines. Complete turnkey systems for special applications.

Why should you choose a containerized plant?

Its fast assembly time of 2-5 days and serviceable design also allows you to launch and run your project with reduced space, costs, and downtime. In a nutshell, containerized plants bring more efficiency, customization, and less investment risk for your company. Our custom modular design allows us to deliver plants that fit your needs.

Customized containerized power plant in Thailand
