

# **Eritrea Enterprise Energy Storage Project**

#### **Overview**

Where is Eritrea's first solar plant?

The government of Eritrea has received a \$49.92 million grant from the African Development Bank to fund a 30 MW photovoltaic plant in the town of Dekemhare, 40 km southeast of the capital Asmara. It will be the country's first large-scale solar plant.

What are Eritrea's development projects?

The last of the five development projects in Eritrea focuses on the public sector, specifically targeting specialized schools driven to provide skills to disadvantaged people.

Where can I find information about energy in Eritrea?

You can find information on energy production, total primary energy supply, electricity consumption, and CO2 emissions for Eritrea on the IEA homepage. For data on energy access (access to electricity, access to clean cooking, renewable energy, and energy efficiency) in Eritrea, visit the Tracking SDG7 homepage.

What is Eritrea's 2030 target for renewable energy?

Eritrea aims to supply 20% of electric power demand through renewable energy sources by 2030. The African Development Bank funding will help the country in achieving this target.
