

Ethiopia container wind power base station equipment

Overview

The power station is owned by the national electricity utility company, (EEP). The station comprises 29 energy-generating wind mills, each rated at 3.45 megawatts capacity, for a total of 100 megawatts at maximum output. The generated energy will be integrated into Ethiopia's national electricity grid, through a substation to be built by the state-owned EEP, with a loan of US\$10 million, borrowed from the (AfDB). Assela Wind.
