

# European Power Generation Container Plant

## Overview

---

What is a containerised modular power plant?

The containerised modular power plant is built to strict high-quality standards and accommodates ambient and heat temperatures, noise attenuation and adhere to site-specific requirements.

Can a container power plant be a power plant solution?

Everywhere In 2018, Geppert set a visionary, ecological milestone in the field of small-scale hydropower: the introduction of a container power plant as a power plant solution. Simple, stand-alone and cost-effective, the Hydropower Cube can supply up to 1 megawatt of green energy.

What is a cogeneration power plant?

Cogeneration power plants are modular combined heat and power (CHP) plant solutions for the generation of electricity and heat, which are preferably operated on the site where the electricity and heat are consumed, yet they can also feed useful heat into a district heating network.

What is an eco-friendly MWM cogeneration power plant?

Eco-friendly MWM cogeneration power plants with combined heat and power enable decentralized, economical and energy-efficient power production. Compact modules for the TCG 3016, 2016 and 2020 gas engines. Complete turnkey systems for special applications.

How to show power plants in level Europe?

Press the wheel icon for settings and press the question mark icon for this text. Level Europe shows individual plants. The colors correspond to the energy source colors from the filter panel. Use the setting Choose how to show power plants to choose between equal circle size for all plants or circle sizes according to the plant capacity.

Which genset containers are available?

All genset containers are also available with an option for  $-40^{\circ}\text{C}$  and most variants can be upgraded for  $+45^{\circ}\text{C}$ . A broad range of options, both mechanical and electrical, are available to ensure that our containers meet the project requirements. For example, we offer several heat recovery configurations and exhaust after treatment systems.
