

Georgia Energy Agency Energy Storage Project

Overview

Will Georgia's energy storage project improve grid resiliency?

As we navigate the clean energy transition while simultaneously responding to increased electricity demands, we expect this energy storage project to enhance grid resiliency and enable the deployment of increased intermittent emission-free energy on Georgia's electric grid," said Oglethorpe Power President & CEO Mike Smith.

How much money does Georgia spend on energy projects?

Officials on Wednesday announced \$3.46 billion for 58 projects across 44 states. Oglethorpe Power Corp., Georgia Transmission Corp., Georgia System Operations and Green Power EMC have committed to spend a total of \$507 million on the projects, including the \$250 million in federal money.

Will Georgia get a \$249 million grant to prevent power outages?

ATLANTA (AP) — A \$249 million federal grant to Georgia aims to prevent power outages and store electricity on the grid. The money was granted to a state agency, which will pass it to entities owned by electric cooperatives. The grant was announced Wednesday in Locust Grove, south of Atlanta, by U.S. Energy Secretary Jennifer Granholm.

What does Georgia's \$249 million Energy grant mean?

The grant also includes advanced grid control systems meant to prevent outages and is expected to lower energy bills through efficiency measures. Jeff Amy covers Georgia politics and government. A \$249 million federal grant to Georgia aims to prevent power outages and store electricity on the grid.

How many MW of new battery energy storage will be available?

An additional 1,000 MW of new battery energy storage is expected to be procured in the coming years through competitive bidding processes and a 13 MW demonstration project is in development at Fort Stewart Army Installation

near Savannah, Georgia.

How does Georgia Power work with the Georgia PSC?

Georgia Power continues to work with the Georgia PSC to procure and develop BESS projects across Georgia.
