

Ghana Energy Storage Power Supply Procurement

Overview

How many power purchase agreements are there in Ghana?

Ghana currently has 32 identifiable contracts, or Power Purchase Agreements (PPAs), in force for the provision of electricity generation. Both Volta River Authority (VRA) and the Electricity Company of Ghana (ECG) have PPAs in place with private Independent Power Projects (IPPs).

What are the three main sectors of electricity in Ghana?

There are three primary segments in the electricity sector: generation, transmission and distribution. Ghana's power suppliers are completely state-owned. Since the government control both transmission and generation of power across the country, it has the authority to set power prices that consumers must pay.

Who carries out electricity distribution in Ghana?

Electricity distribution in Ghana is carried out by three main distribution utilities, two state-owned and one private sector operated. The Electricity Company of Ghana (ECG), the largest distribution company, is a limited liability company wholly owned by the government of Ghana.

Does Ghana have a PPA?

Both Volta River Authority (VRA) and the Electricity Company of Ghana (ECG) have PPAs in place with private Independent Power Projects (IPPs). The Ministry of Energy has also contracted PPAs with Emergency Power Producers (EPPs).

How many PPAs are in force for electricity generation in Ghana?

This case study, written in collaboration with the Institute of Economic Affairs (IEA Ghana), identified 32 PPAs currently in force for the provision of electricity generation. We have summarized the implications of these contracts, and compiled all available public information into a downloadable Annex.

Why does Ghana need a more transparent electricity contracting system?

Ghana's electricity sector faces an urgent crisis of immense financial strain that calls for a new, more transparent approach for contracting power in the future. Public information on current contracts is highly limited, which has contributed to overcapacity, weakened sector planning, mounting debt, and rising concerns over public accountability.
