

Guinea-Bissau builds green communication base station on the plateau

Overview

How can Guinea-Bissau achieve a sustainable growth trajectory?

According to the CCDR, strengthened institutional and financial systems are crucial for fostering climate resilience and sustainable development in Guinea-Bissau. Good governance, political stability, and a favorable business environment are essential to the country's sustainable growth trajectory.

What pipeline projects are being implemented in Guinea-Bissau?

In the Energy sector there is a set of pipeline projects to be implemented in Guinea-Bissau (Table 3.3). Table 3.3 -Pipeline projects identified to be implemented in Guinea-Bissau (Adapted from UNIDO, 2017). Solar street lighting poles in the country.

Why does Guinea-Bissau want a greener economy?

Therefore, Guinea-Bissau believes that with support of the International Community the attainment of these actions will contribute towards a greener economic growth trajectory for the country and simultaneously heighten the country's environmental safeguard for years ahead for the benefit of the people of Guinea-Bissau.

How many protected areas are there in Guinea-Bissau?

The Guinea-Bissau National Protected Areas Network currently has six Marine and Coastal Parks, and the expansion process to 26.3% of the national territory was accomplished through the "Support Project for the Consolidation of a System of Protected Areas in the Forest Belt".

How does governance work in Guinea Bissau?

This will reduce pressure on forests and consequently natural regeneration and restoration of forest heritage. Governance in Guinea Bissau is based on articulation between the Central Government and Regional Governments. Regional governments have very limited means to meet their obligations.

Some Ministries have delegations in different regions.

What is the basic scenario for industrial production in Guinea-Bissau?

The projections in the basic scenario (BAU) for industrial production are associated with the growth of GDP, since it is such a dynamic sector, with new industries initiating operations and others closing as the country advances. The list of projects that Guinea-Bissau proposed during the initial communication is presented below (Table 3.1).
