

# High energy 7 4v lithium battery pack

#### **Overview**

What is a 7.4v lithium-ion battery pack?

Explore our 7.4V lithium-ion battery packs, perfect for powering a wide range of devices, from drones and medical devices to portable electronics. These packs offer high energy density, compact design, and excellent performance, ensuring long-lasting power and fast charging. Ready to power your project with a reliable solution?

.

What is a 7 4 volt battery?

Part 1. What is a 7.4 V battery?

A 7.4V battery is a rechargeable lithium-based power source, typically configured as a 2-cell (2S) lithium polymer (LiPo) or lithium-ion (Li-ion) pack, with each cell providing a nominal voltage of 3.7V, totaling 7.4V when combined in series.

What is a 3.7V battery used for?

3.7V batteries are commonly used in small, portable electronic devices like smartphones, cameras, and vaping devices. 7.4V batteries are often used in larger, power-hungry devices like power tools, drones, and some RC vehicles, where the higher voltage and energy capacity are beneficial.

Why do you need a 7.4v battery?

Understanding 7.4V batteries, from their types and applications to how to make and charge them, can significantly enhance your tech game. Whether you're powering a drone, an RC car, or another gadget, knowing the ins and outs of these batteries ensures you get the most out of your devices safely and efficiently.

What is a 7.4v LiPo battery?

A 7.4V LiPo battery is a specific type of rechargeable battery that uses lithium-polymer chemistry. LiPo batteries are known for their high energy density, compact size, and flexibility in shape. The 7.4V nominal voltage is typically achieved by connecting two 3.7V LiPo cells in series.

What is the voltage range of a 7 4 volt lithium battery?

The voltage range of a 7.4 V lithium battery is generally as follows: Nominal voltage: 7.4V. This is the voltage output by the battery under ideal conditions, usually marked on the battery. Full voltage: about 8.4V. When the battery is fully charged, the voltage will reach its highest value, generally around 8.4V. Low voltage: about 6V.

### High energy 7 4v lithium battery pack

## Tenergy 7.4V Li-ion 2200mAh Rechargeable Battery Module with ...

Tenergy's 2,200mAh capacity 7.4V rechargeable battery pack has a higher energy density while staying light weight offering a long run-time. Wide compatibility - The bare leads ...

<u>WhatsApp</u>

## What Makes 7.4V Li-Ion Battery Packs Ideal for High-Capacity ...

7.4V Li-ion battery packs combine high energy density, lightweight design, and stable voltage output, making them ideal for devices requiring sustained power. Their 7.4V ...
