

# Home energy storage battery sales in the Netherlands

#### **Overview**

Is the Netherlands a good market for battery storage?

The Netherlands is an emerging market for battery storage but, due to the lack of saturation, also a highly exploitable one. In early 2025, enspired, together with Flexcity and S4 Energy, reached an exciting milestone by taking the country's first 4-hour BESS live in a cross-market optimization setup.

Do Dutch home battery purchases keep driving battery storage installations?

Dutch home battery purchases keep driving battery storage installations. According to Dutch New Energy Research's Nationaal Smart Storage Trendrapport 24/25, 410 MWh of new battery capacity was installed in the Netherlands in 2023 – 1 MWh is enough to power a couple hundred homes for a day.

How many home batteries are there in the Netherlands?

56% of the total number of batteries purchased in the Netherlands last year (13,600 of 24,400) were small home batteries—less than 5 kWh—followed by bigger home batteries, with up to 20 kWh capacity. With battery sales ramping up worldwide, the Netherlands, too, will add more storage.

Are batteries a sustainable solution to future-proof the Netherlands' electricity system?

Batteries, both BTM and grid-scale FTM (front-of-the-meter), play an important role in mitigating such challenges and offer a sustainable solution to future-proof the Netherlands' electricity system. But how can it integrate more batteries if the grid struggles to handle the current load?

.

What are the laws & regulations on energy storage in the Netherlands?

No specific laws & regulations: In the Netherlands, energy storage is not

described in Dutch laws and regulations as a specific item. Standard requirements: It has to meet standard requirements for production and consumption and some specific technologies that are part of the energy storage system must comply with standardisation.

Are battery energy storage systems a direct source of flexibility?

An important direct source of flexibility for the electricity market, are battery energy storage systems (BESS). DNV has been commissioned by Invest-NL to examine the Dutch wholesale and balancing market developments and opportunities for BESS.

#### Home energy storage battery sales in the Netherlands
