

Huawei Turkmenistan PV Module Project

Overview

Will Turkmenistan achieve its first solar project?

The new project follows the recent launch of a 10 MW hybrid wind-solar project and will help the country achieve the deployment of its first solar projects. Turkmenistan has installed zero solar capacity to date.

Does Turkmenistan have solar power?

According to data from the International Renewable Energy Agency, Turkmenistan had no solar or wind capacity installed as of 2021. Its total renewable energy capacity in 2021 was 2 MW, all from hydroelectric power.

What is smart PVMs?

Smart PVMS enables the simultaneous upgrade of up to 50,000 devices and supports selective device upgrades. It is fully prepared to manage future device advancements with increased efficiency and reduced workloads. With our 24/7 intelligent customer service, video tutorials, user guides, and FAQs, installers can easily resolve complex issues.
