Inverter power resistor

What resistor is used for solar power generation? , NenPower

This resistor type is particularly valuable in solar inverters, where they can withstand peak currents from solar panels without degrading or failing. Additionally, wirewound ...

Inverter pre-charge resistor size? , DIY Solar Power Forum

On every system I've ever built, I used a 10w 10ohm resistor, doing it the old fashioned way. Even for dual 48v Victron Quattro 10k's, it wasn't too low of a resistance, and ...
