

Is it good to install photovoltaic panels for home use in Greece

Overview

Does Greece have a plan for rooftop solar PV?

November 2023, Greece submitted its NECP with more ambitious and updated targets for renewables and solar: 23.5 GW for all forms of renewables, from which 13.4 GW came from solar power capacity. However, there is no roadmap or strategy at this time in regards to rooftop solar PV in particular.

Can photovoltaic panels be installed on a building roof?

The installation of photovoltaic panels on a building roof or integral with a building roof also raises other code issues (e.g., roof loading, wind loading, fire ratings, weather tightness, mounting systems, roof penetrations, etc.), which may also be relevant for systems mounted on or integral to a wall.

How much photovoltaic capacity does Greece have?

As of December 2013, the total installed photovoltaic capacity in Greece reached 2,419.2 MWp of which 987.2 MWp were installed in the period between January–September 2013 despite the financial crisis. Greece ranks 5th worldwide with regard to per capita installed PV capacity.

Are rooftop photovoltaic panels subsidized?

Rooftop photovoltaic panels combined with power storage will be subsidized by the state to up to 60% of their cost, an Energy Ministry official told the Renewable and Storage Forum on Thursday. Subsidies are for units up to 10 kilowatts, with the program's details to be unveiled for a period of public consultation within the next two weeks.

What impedes solar development in Greece?

Currently, probably the main reason that impedes solar development and that makes administrative procedures long and burdensome in Greece, including rooftop solar, is grid availability. In many areas, applications for solar rooftop PV are being rejected due to lack of electricity grid capacity.

What is the government doing about photovoltaics?

The government is also working on two more programs to support the installation of photovoltaics: one targeting self-generation by businesses and another to promote energy communities for helping vulnerable consumers, energy secretary Alexandra Sdoukou said.
