

Italian photovoltaic panel assembly manufacturer

Overview

Who makes industrial photovoltaic solar panels?

Trienergia produces industrial photovoltaic modules suitable for large-scale installations to improve the energy efficiency of companies, commercial and industrial. Trienergia is a manufacturer of state-of-the-art photovoltaic solar panels with innovative design, capable of ensuring high efficiency and better performance.

Where are photovoltaic modules made?

Every stage of the production of our photovoltaic modules is carried out in our advanced factory in Castegnato, in the province of Brescia, where technology and precision come together to ensure the highest quality. With automated processes and strict quality control, we are able to offer high-performance, reliable and long-lasting products.

Which material is used in photovoltaic technology?

Crystalline silicon is the dominant semiconducting material that is used in photovoltaic technology for the production of solar cells. These cells are then assembled into solar panels as part of a photovoltaic system to generate solar power from sunlight.

Does Italy have a solar market?

In 2018, Italy added solar PV capacity of 437 MW, and its PV market grew by 7%. The major driving factor in the Italian PV market has been solar rooftops, and the number of solar installation projects with more than 1 MW capacity increased in 2017 and 2018.

What is a trienergia photovoltaic module?

Trienergia photovoltaic modules are made exclusively from high-quality components and incorporate state-of-the-art MWT Back-contact technology. These modules offer 20 percent higher efficiency than conventional modules

and provide greater reliability by eliminating solder spots thanks to ribbon-less technology.

How many solar plants are there in Sicily?

Currently, there are three solar plants running in the country. The first one is the Archimede solar plant, which was installed on the island of Sicily in 2010, attaining a solar capacity of 5 MW.

Italian photovoltaic panel assembly manufacturer

[Italian certified producers of photovoltaic panels](#)

Since 2008 Eclipse Italia has designed and produced completely Italian photovoltaic panels - based on the crystalline silicon technology. They are realized thanks to the passion and skills ...
