

Italy will subsidize electricity prices for 5G base stations

Overview

How much does 5G cost in Italy?

Furthermore, the Italian government appointed plans to subsidize 5G deployment and infrastructure, namely, the "Italia 1 Giga", planned for 2026, and the "Italia 5G", worth around 950 million euros. Discover all statistics and data on 5G in Italy now on statista.com!

Will Italy fund 5G infrastructure in 2022?

The government will fund up to 90% of the cost of 5G infrastructure that targets the digital divide by expanding rural networks. The EU approved Italy's infrastructure plan in April of that year. In 2022, Inwit installed the same infrastructure in the new Milan metro line M4 for 4G and 5G connection to Vodafone and TIM users.

What is the Italian 5G plan?

The Italy 5G Plan, with an allocation of EUR 2.02 billion aims to incentivise the deployment of 5G mobile networks in areas of market failure. The Italian Strategy for Ultra Broadband 2023-2026 was approved by the Interministerial Committee for Digital Transition (CITD) on 6 July 2023.

What percentage of Italy's population is covered by 5G?

According to the latest estimates/data available, Italian operators (TIM, Vodafone, WindTre and Iliad) claimed to have achieved 90-95% population coverage with 5G services.

Which cities in Italy have 5G networks in 2023?

As per SA 5G networks, by the end of 2023 a network was realized and switched on in the main cities of Italy, namely Milan, Rome, Turin, Bologna, Naples, Florence, Verona and Catania thanks to the collaboration among the top telecommunications market players (TIM, Vodafone, WindTre and Iliad).

When did 5G start in Italy?

In 2020 TIM and Ericsson launched 5G connected technologies at the Leonardo da Vinci Fiumicino Airport in Rome. In 2021 the government assigned EUR 2.02bn (USD 2.10bn) from the Italian Recovery and Resilience Plan to the application of the 5G Italy Plan.
