

Ivory Coast energy storage power supply production factory

Overview

Energy in Ivory Coast concerns the production and export of energy and electricity in the Ivory Coast. The country has a capacity of 2,200 megawatts (MW) energy production. Unlike other countries in sub-Saharan Africa, the Ivory Coast is a reliable power supplier in the region, exporting electricity to neighbouring countries such as Ghana, Burkina Faso, Benin, Togo, and Mali. I. Solar energyIvory Coast aims to reach 400 MW in generating capacity from solar power by 2030. The country is building the .

What is energy in Ivory Coast?

Energy in Ivory Coast concerns the production and export of energy and electricity in the Ivory Coast. The country has a capacity of 2,200 megawatts (MW) energy production.

Will Ivory Coast build a solar power plant in Tchologo?

Ivory Coast aims to increase its installed power capacity to 3.5 GW by 2025 and 8.6 GW by 2040. As part of this strategy, the country's Ministry of Mines, Petroleum and Energy signed a memorandum of understanding (MoU) with renewable energy company Kong Solaire earlier this month to construct a 50 MW solar power plant in the Tchologo region.

Why did Ivory Coast build its first solar power plant?

As part of its drive to diversify electricity generation sources and increase the share of renewable energies in its energy mix (45% by 2030), Ivory Coast commissioned RMT to build the country's very first photovoltaic solar power plant, with a capacity of 37.5 MWp, spread over 69,440 550 Wp solar panels and 168 inverter-strings of 250 kVA.

Who builds a solar power plant in Ivory Coast?

RMT builds a 37.5 MWp solar power plant and installs. Boundiali photovoltaic solar power plant in northern Ivory Coast was built in partnership with the country's government, in particular CI-ENERGIES, and with financial support

from Germany. It has been in operation since July 2023.

Is Ivory Coast a reliable power supplier?

Unlike other countries in sub-Saharan Africa, the Ivory Coast is a reliable power supplier in the region, exporting electricity to neighbouring countries such as Ghana, Burkina Faso, Benin, Togo, and Mali. Ivory Coast aims to produce enough renewable energy by 2030 to reduce its greenhouse gas emissions by 28%.

Will Ivory Coast start a solar power plant in Sokoro?

In April this year, Ivory Coast announced the start of construction of the \$63.5 million Ferke solar power plant in Sokoro, which will have an installed capacity of 52 MW. Set to commence operation by Q3 2025, the project stems from an agreement signed in January 2024 with renewable energy company PFO Africa and is supported by Germany and the EU.
