

Kiribati Home Solar All-in-One Garden

Overview

Is Kiribati embracing solar energy?

Poverty-stricken and energy-poor, the remote South Pacific island nation of Kiribati is embracing solar energy. Is its experience a model or a cautionary tale?

BUARIKI, KIRIBATI — As late as 1990, nightfall in Kiribati (pronounced “Kiribass”), a patchwork of tiny islands in the middle of the Pacific Ocean, was accompanied by a peculiar odor.

What is Kiribati integrated energy roadmap?

The resulting Kiribati Integrated Energy Roadmap (KIER) highlights key challenges and presents solutions to make Kiribati’s entire energy sector cleaner and more cost effective. As a small, remote island state, Kiribati is highly dependent on imported energy supply. Electricity is one of the government’s largest expenditures.

What is the future of Kiribati gardens?

The future of these gardens looks bright. An order of seven kilos of seeds, nearly twice the size of the 2020 seed order, arrived in Kiribati in February 2021 (delayed due to COVID). These seeds will grow to seedlings at the eight satellite nurseries on the island of Tarawa and will then be distributed to local community gardeners.

Does Kiribati's 25-year solar rollout go smoothly?

But the 25-year solar rollout in Kiribati hasn’t always gone smoothly, according to officials and energy consultants.
