

Kosovo Industrial Park Energy Storage Project

Overview

What is the energy strategy for Kosovo?

The Kosovo energy strategy includes increasing RES capacity to 35% of electricity consumption by 2031. Aiming for 600 MW wind, 600 MW solar PV, 20 MW biomass & at least 100 MW of prosumer capacity, to reach a total installed RES capacity of 1600 MW by 2031. Lignite exploitation in Kosovo started in 1922.

What is the energy storage project?

The Energy Storage Project aims to support Kosovo's energy security and transition to a cleaner energy future.

What is the Kosovo compact?

In line with Kosovo's current focus of transitioning towards an energy future that is more sustainable, inclusive, reliable, and affordable, the Kosovo Compact focuses on addressing Kosovo's unreliable supply of electricity, a binding economic constraint for the country, through three projects.
