

Latvian solar integrated machine 100W

Overview

How many solar panels are installed in Latvia?

As of June 2023, the number of solar panels installed by the Latvian population and connected to AS "Sadales tīkls" reached 15,000 units, and their total capacity exceeded 120 MW - about 15% of the total electricity consumption in Latvia on a sunny day. Solar panels have a lifespan of more than 25 years.

How long do solar panels last in Latvia?

Solar panels require almost no maintenance during their lifetime. In addition, rain cleans the surface of the panels well. The payback period for correctly adapting to the consumption of solar panels is 4-7 years. Why are more and more people in Latvia installing solar panels and inverters?

.

Why should you use Solis cloud inverter for C&I PV systems?

Combined with the rich online O&M tools provided by the Solis cloud platform, it can effectively reduce O&M costs, simplify O&M, and improve system efficiency. This inverter provides more efficient, safe, intelligent, and economical high-power inverter solutions for C&I PV systems.
