

Lithium battery pack box

Overview

What is a lithium battery shipping box?

The lithium battery shipping boxes are suitable for non-certified batteries, prototypes, battery cells, battery modules and batteries in equipment. For increased part protection, the batteries are stored in layers using customised interior packaging solutions that are developed to safely hold dangerous goods.

Which battery boxes are suitable for lithium batteries?

Our battery boxes, specifically our Battery Box Camping range, are suitable for Lithium Batteries. They are also suitable for Lead Acid, Calcium, Gel and AGM Batteries.

What is included in a lithium battery storage box?

Includes hold-down straps, locking lid, access hole for wiring, and hardware. This 32" x 10-1/2" x 12-1/4" box keeps lithium batteries safe and secure. Built-in solar panels provide power to maintain charge for batteries. Includes hold-down straps, lid with built-in lock, access hole for wiring, and hardware.

Do you need a shipping box for lithium batteries?

UN certified containers for transporting and storing lithium batteries are needed to comply with the regulations. ORBIS' lithium battery shipping boxes fully hold and protect the batteries from damage or shocks of any kind. That includes isolating loose cables and poles.

What is lithium ion battery packaging?

The lithium ion battery packaging utilises standard footprints designed to interface with customers' existing supply chains. Once batteries are removed at the assembly line, two-unit loads can fit together and packed into one lithium battery container, to reduce return shipping costs.

How big is a lithium battery box?

This 32" x 10-1/2" x 12-1/4" box keeps lithium batteries safe and secure. Built-in solar panels provide power to maintain charge for batteries. Includes hold-down straps, lid with built-in lock, access hole for wiring, and hardware.

17-3/4" x 8-3/16" x 11-3/8" Box keeps batteries safe and secure. Heavy-gauge aluminum is lightweight and rustproof.
