

# Luxembourg lithium battery container manufacturing plant

#### **Overview**

Will Lyten be able to deliver lithium-sulfur batteries in 2024?

Lyten, from its facilities in San Jose, California, plans to deliver both Lithium-Sulfur batteries and lightweighted composite solutions to commercial customers by early 2024 and is actively pursuing expansion plans in the US and Europe.

Does Lyten make lithium-sulfur batteries?

Lyten is a manufacturer of 3D graphene supermaterials used in various applications, including lithium-sulfur batteries. The company plans to begin supplying lithium-sulfur batteries and other products to commercial customers from its San Jose, California, facility in early 2024. It is pursuing expansion plans actively in both the U.S. and Europe.

What is Lyten doing in Luxembourg?

Lyten is also exploring opportunities to establish research and development capabilities in Luxembourg, including infrastructure to support collaboration with European customers on disruptive applications utilizing Lyten's 3D Graphene platform.

What makes Lyten a 'cleantech innovation hub'?

"Lyten is representative of the type of firm that Luxembourg embraces as we position ourselves as a cleantech innovation hub that supports private research, development and innovation in priority economic sectors.
