Who makes the best string inverter?

German manufacturer SMA Solar Technologies was widely regarded as the best string inverter manufacturer before the Fronius snap-in series took the top spot in 2016. However, the new Sunny Boy AV series regained some market share after SMA relocated all manufacturing back to Germany in 2019.

Are hybrid inverters a good option during a blackout?

Most hybrid inverters provide basic backup power during a blackout but are generally not designed for continuous off-grid use. While more expensive, hybrid inverters are becoming more cost-competitive against solar inverters as hybrid inverter technology advances and batteries become cheaper and more appealing.

What makes a good inverter?

Think of it as a bridge between your power source and the devices you need to run. A good inverter ensures durability, efficiency, and compatibility. A low-quality inverter may overheat, damage devices, or fail when you need it most. This is why brand reputation and features are so important.
