

Photovoltaic curtain wall of Sierra Leone substation

Overview

Who is supplying containerized solar power in Sierra Leone?

Photo: Michael Duff – InfraCo PowerGen, through their Sierra Leone project company Off-Grid Power (SL) Ltd*, has tendered 20 containerized solar systems for implementation in Work Package 2 of the RREP. The German system integrator and EPC Asantys Systems GmbH was selected to supply the containerized solar power assets.

Does power Leone have a solar mini-grid?

Power Leone continues to supply modern energy reliably in all three locations. "The use of Results Based Financing for the roll-out of solar mini-grids is an important step for Sierra Leone. As the RBF mechanism is scalable, it has the potential to lead to a palpable acceleration in rural electrification.

What is the largest off-grid solar energy initiative in Sierra Leone?

This milestone project, implemented by Off-Grid Power * (funded by PIDG company, InfraCo Africa) aimed to provide first-time electricity to 6,657 households & businesses in Sierra Leone, making it the largest off-grid solar energy initiative in the country.

How many solar mini-grids are there in Sierra Leone?

There are over 100 solar mini-grids in operation in Sierra Leone under Private sector portfolios. Based on experience and with support from SEforALL, SLWERC has developed an improved Multi Year Tariff Order, (MYTO2), which provides further improved transparency, clarity and equity.

Can mini-grids expand access to rural populations in Sierra Leone?

Under the Sierra Leone Renewable Energy Policy, adopted in 2016, the Government envisioned a clear role for mini-grids in expanding access to rural populations and began taking steps to facilitate their expansion.

Which solar cells are used in photovoltaic curtain wall?

At present, crystalline silicon solar cells and amorphous silicon solar cells are mainly used in photovoltaic curtain wall (roofing) systems. Photovoltaic glass modules have different color effects depending on the type of product used.
