

Photovoltaic inverter production in Montenegro

Overview

Are there solar power plants in Montenegro?

As for Montenegro, news has lately surfaced about several huge investments, mostly via the urban planning and technical requirements. There are still no utility-scale solar power plants in the country. CWP Europe plans to install a solar power plant called Montechevo with a total capacity of 400 MW in Cetinje.

Will Montenegro build a photovoltaic park?

The Government of Montenegro issued the urban planning and technical requirements for the construction of a photovoltaic park at seven locations in Lastva and Ubli near the country's historic capital of Cetinje. RES Montenegro Group has determined that the potential connection capacity is 506 MW and estimated the annual output at up to 750 GWh.

Where is Res Montenegro planning a solar project?

A section would be placed in the cadastral municipality of Lastva, which RES Montenegro Group is also eyeing for its own project. Sunrise Europe, based in the seaside town of Kotor, intends to set up a solar park with a peak capacity of 220 MW in Šavnik while the company Obnovljivi izvori energije is preparing to build a 225 MW facility in Cetinje.

Will rezolv energy build a solar power plant?

Revolv Energy said in November that it would start building a solar power plant of over 1 GW in June in the country. The region tracked by Balkan Green Energy News seems to have caught up with the rest of Europe with megaprojects in the solar power segment, at least when planning is concerned.

How big is Res Montenegro?

RES Montenegro Group has determined that the potential connection capacity

is 506 MW and estimated the annual output at up to 750 GWh. The project launched by the firm based in Podgorica is therefore the largest in Montenegro in the sector and also one of the biggest ones in the Balkans.
