

# Photovoltaic panel classification and size

#### **Overview**

Solar photovoltaic panels can be classified into different types based on their technology and design, resulting in variations in size and power output. The three primary categories are monocrystalline, polycrystalline, and thin-film solar panels.

### Photovoltaic panel classification and size

### An Extensive Guide to Different Types of Solar Panels

Solar panel sizing typically uses "L" for length (also called "height"), "W" for width, and "D" for depth. Traditional residential solar panel types like monocrystalline and ...
