

Photovoltaic power station in Estonia

Overview

The project is a collaborative venture between Baltic Green Energy and Stora Enso, a renowned energy company. The upcoming solar power plant is projected to generate an impressive 300,000 MWh of electricity annually, effectively powering approximately 100,000 households for a year.

Photovoltaic power station in Estonia

Estonia receives a EUR62 million loan to construct the largest solar ...

Located in Lääne County, approximately 65 kilometres southwest of Tallinn, the solar park is expected to be operational by 2027 and will generate enough electricity to power over 80,000 ...
