

Sofia Solar Power Generation System

Overview

Which project will increase solar power generation in Bulgaria?

The Verila project, which is being built in hilly terrain south of Sofia, will increase solar power generation in the country by 12 percent. Sofia, Munich (16/12/2022): The construction of Bulgaria's largest solar power plant is due to be completed by spring 2023.

How big is Bulgaria's solar power?

In a matter of months, Bulgaria's total solar power capacity is set to exceed 3 GW, compared to just 1.3 GW at the end of 2021. The lineup in the list of the largest photovoltaic plants is changing almost every week as major facilities come online, and there is more in the pipeline.

Who builds solar power plants in Europe?

About SUNOTEC SUNOTEC is Europe's market leader in the construction of utility solar PV plants. The company, based in Sofia (Bulgaria) and Munich (Germany), currently employs more than 1,000 people. It has already built more than 400 grid connected solar power plants.

Are solar panels a viable option for self-consumption in Bulgaria?

Conversely, households and institutions interested in installing solar panels for self-consumption are still stuck with administrative hurdles In the statistics of the International Renewable Energy Agency (IRENA), Bulgaria had 1.28 GW at the end of 2021 and 1.95 GW just one year later. The measure is expressed in nominal or peak capacity.

Which solar panels are bifacial?

The panels are bifacial. After Verila, the largest unit is Tera Sol, at 111.6 MW in nominal terms (100 MW). Project firm C Solar energy was established by CSOL invest, a subsidiary of Georgi Zlatarev's C Energy Group. The photovoltaic park was built last month on almost 120 hectares in the vicinity

of the village of Hrishteni near Stara Zagora.

What is sunotec doing in Bulgaria?

It is just one of seven projects that SUNOTEC is currently undertaking in the country. "Like many other countries in the EU, Bulgaria needs to dramatically increase its capacity in the renewable energy sector, especially in light of the current climate and energy crises," says SUNOTEC founder and CEO Kaloyan Velichkov.
