

# Solar panels power generation in Spain

### **Overview**

is one of the first countries to deploy large-scale, and is the world leader in (CSP) production. Spain is also one of the European countries with the most hours of sunshine. In 2022, the cumulative total installed was 19.5 GW, of which 17.2 GW were solar PV installations and 2.3 GW were concentrated solar power. In the same year.
