

Solar panels to charge on-site energy

Overview

These systems, which are considered as “behind-the-meter” (BTM) systems, allow facilities to maximize the benefits of on-site renewable generation. □ BTM systems give facilities the option to reduce demand charges¹ imposed by the utility and leverage time-of-use rates² to lower operational costs.

Solar panels to charge on-site energy

Onsite Energy Technologies , Better Buildings Initiative

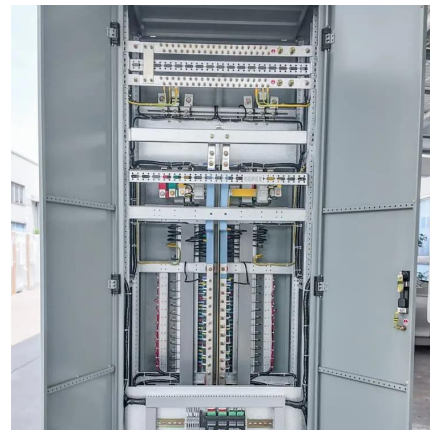

Battery storage technologies allow electricity to be stored onsite and used on-demand. Onsite battery storage systems are used for demand reduction, energy price arbitrage, time shifting ...
