

Southern European energy storage battery container manufacturer

Overview

Who makes the best battery energy storage system?

As the top battery energy storage system manufacturer, The company is renowned for its comprehensive energy solutions, supported by advanced industrial facilities in Shenzhen, Heyuan, and Hefei. Grevault, a subsidiary of Huntkey, is a leader in the battery energy storage sector.

Where is the first battery energy storage solution being built?

The first Q ENERGY battery energy storage solution is currently being built as a stand-alone solution on the site of the Emile Huchet power plant in north-eastern France. The project is part of a comprehensive green transformation of the previously fossil-fuelled power plant by its owner GazelEnergie.

Why is energy storage important in Europe?

In Europe, there is a growing consensus amongst policymakers that energy storage is crucial to securing affordable and low carbon energy. In May 2022, European Union launched their REPowerEU plan, a part of the European Green Deal, which mandates that 45% of Europe's energy generation needs to come from renewable sources by 2030.

What is a battery energy storage system?

Our battery energy storage systems (BESS) provide the optimal answer to intermittent energy production. By absorbing excess energy generated during periods of high production, BESS enable a smoother and more reliable integration of renewable energy into the grid, steadily reducing dependence on fossil fuels.
