

# Storage batteries in East Asia

#### **Overview**

What is Southeast Asia battery market?

The Southeast Asia Battery Market report segments the industry into Battery Type (Lead-acid Battery, Lithium-ion Battery, Other Battery Types), End-User (Automotive, Data Centers, Telecommunication, Energy Storage, Other End-Users), and Geography (Indonesia, Malaysia, Philippines, Singapore, Thailand, Vietnam, Myanmar, Rest of Southeast Asia).

Are battery energy storage systems revolutionizing energy solutions?

In an article featured on The Business Times, Rodrigo Hernandezvara, Head of Solar C&I at ENGIE highlights how Battery Energy Storage Systems (BESS), combined with renewable energy sources like solar power, are revolutionizing energy solutions for the region.

Why is the Southeast Asian battery market undergoing a significant transformation?

The Southeast Asian battery market is undergoing a significant transformation driven by technological advancements and shifting energy priorities. The region has witnessed a dramatic reduction in lithium-ion battery prices, making electric vehicles and energy storage solutions increasingly viable for widespread adoption.

Why is the lithium-ion battery segment growing in Southeast Asia?

The lithium-ion battery segment is experiencing rapid growth in the Southeast Asian market, driven by increasing adoption in electric vehicles and energy storage applications. The segment's growth is propelled by its favorable capacity-to-weight ratio technology, which significantly influences market dynamics.

Which country dominates the Southeast Asian battery market in 2024?

Thailand stands as the dominant force in the Southeast Asian battery market,

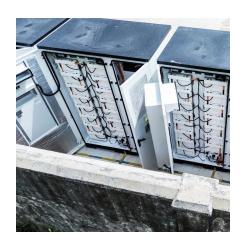

commanding approximately 28% of the total market share in 2024.

What are the key players in the Southeast Asian battery market?

The Southeast Asian battery market features prominent global players like BYD Company, Tesla, GS Yuasa, Panasonic, and Samsung SDI alongside regional specialists. These companies are increasingly focusing on product innovation, particularly in lithium-ion technology and energy storage solutions for renewable integration.

#### Storage batteries in East Asia

### Asia is building the backbone of its renewable future with energy ...

Across the region, countries are moving towards deployment targets, overcoming supply chain hurdles, and unlocking new pathways to scale up utility-scale batteries alongside ...
