

Taipei s first substation energy storage

Overview

Which energy storage system is installed at Taipower Luyuan substation?

In 2021, Recharge Power won the bid for the "Luyuan Primary Distribution Substation (D/S) Energy Storage Equipment System 1 Set" procurement project and installed it at Taipower Luyuan Substation. This project uses the world's fourth largest Powin Energy energy storage system.

What is Taipower's energy storage system at Longtan Taoyuan?

Taipower's energy storage system at Longtan, Taoyuan is a key project for the Taiwan government. In the future, when a large amount of offshore wind power is connected to the Taipower system, energy storage systems will play a key role in stabilizing the power grid. Safety is a core element of Fluence's business.

Who supplied the energy storage system at Taoyuan Longtan?

Located at the Taoyuan Longtan ultra-high voltage substation, the energy storage system was supplied by Fluence in partnership with TECO Electric & Machinery Co. (TECO).

Will Taiwan's energy storage system play a role in grid stability?

TECO Chairman Sophia Chiu pointed out that in the future when a large amount of offshore wind power is added to Taiwan's power system, energy storage systems will play an important role in grid stability.

Why are stable energy storage solutions important in Taiwan?

As Taiwan's renewable energy share continues to grow, stable energy storage solutions are becoming increasingly vital to offset fluctuations in solar and wind power generation.

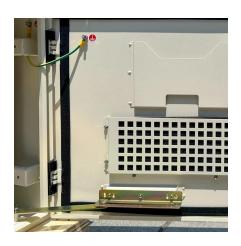

What is Taipower's first self-built Bess project?

This project uses the world's fourth largest Powin Energy energy storage system. The Luyuan project completed the COD as scheduled in January 2022, becoming Taipower's first self-built BESS project to go online.
