

Tanzania New Energy Photovoltaic Station

Overview

The Kishapu Solar Power Station is a proposed 50 MW (67,000 hp) plant in . The power station is under development by (TANESCO), the national electricity monopoly utility company. The energy will be integrated into the national grid, also operated by TANESCO. The solar farm will be developed in phases to capacity of 150 megawatts. When completed and commissioned, it will be the largest, grid-read.

Tanzania has begun construction on a 150 MW solar power project in Shinyanga, significantly advancing its renewable energy goals.
