

# Two degrees of electricity outdoor power supply five degrees

#### **Overview**

Many of the rules applying to outdoor receptacle outlets are aimed at reducing the likelihood of shock, which is a notable risk anytime a user is in direct contact with.

The rules for outdoor lighting are principally about using fixtures that are rated for use in damp or wet locations: 1. Light fixtures in wet/exposed areas must be.

Even though standard NM cable has a vinyl outer jacket and waterproof insulation around the individual conducting wires, it is not intended for use in outdoor.

This is not an NEC requirement, but it could save your life, not to mention prevent considerable trouble with your service providers. Call 811, the national.
