

Türkiye s foreign trade portable energy storage emergency power supply

Overview

How big is Türkiye's energy storage capacity?

Türkiye's 35 GWh storage capacity accounts for grid-scale projects alone. Global energy storage investments have surpassed 150 GWh. Türkiye has already begun installations in Hungary, Bulgaria, and Spain, leveraging its geographic advantage close to Europe.

Where does Türkiye invest in energy storage?

Global energy storage investments have surpassed 150 GWh. Türkiye has already begun installations in Hungary, Bulgaria, and Spain, leveraging its geographic advantage close to Europe. Tokcan highlighted the importance of local expertise in manufacturing, system management, and maintenance to avoid dependency on foreign firms.

Are Turkish energy storage systems a good investment?

Speaking with Energy-Storage.news yesterday, Can Tokcan, managing partner at Turkish energy storage system integrator and manufacturer iNOVAT, said the developments were "very positive for the industry," although it remains to be seen "how much of that [near 30GW] will be realised and in what time span".

Can Türkiye become a battery hub of the region?

EDEDER will host the Energy and Storage Future Congress in Ankara on Dec. 24 under the theme "Battery Hub of the Region: Türkiye." "We believe Türkiye can become a regional hub for battery technology, and our government is committed to making this a reality," Tokcan said.

Will Turkey raise import duties for lithium iron phosphate (LFP) batteries?

Image: Polat Enerji The government of Turkey, currently processing applications for large-scale energy storage facilities at renewable energy plants, will raise import duties for lithium iron phosphate (LFP) battery

products.

Should energy storage regulations be finalized?

Energy Storage Industries Association (EEDER) President Can Tokcan noted during a press briefing that finalizing regulations is crucial to accelerating investments. “The draft regulation for energy storage has been published, but the final version needs to be issued urgently.
